

Curriculum vitae of Alexander Okotrub

NAME

Alexander Vladimirovich Okotrub
was born 22 April 1958, Russian.

POSITION TITLE

Head of laboratory

EDUCATION

INSTITUTION AND LOCATION	DEGREE	YEAR	FIELD OF STUDY
Novosibirsk State University Institute	B.S.	1980	Physics
Chemical Kinetics and Burning SB RAS	Candidate of Physics-Mathematics Sciences	1989	Chemical Physics
Institute of Inorganic Chemistry SB RAS	Doctor of Physics-Mathematics Sciences	2000	Physical Chemistry

RESEARCH AND PROFESSIONAL EXPERIENCE

(Institute of Inorganic Chemistry SB RAS)

Post-graduate student, aspirant	- 1980-1987
Young Research Scientist	- 1987-1989
Research Scientist	- 1989-1993
Senior Research Scientist	- 1993-2001
Leader Research Scientist	- 2001-2006
Head of Laboratory	- 2006
Professor in Science (Physical Chemistry)	- 2008
Head of Department Chemistry of Functional Materials	- 2014

Alexander V. Okotrub received his DSc in physical chemistry. Presently, he is a professor in physical chemistry and the head of the Laboratory of Physics-Chemistry of Nanomaterials and the head of Department of Chemistry of Functional Materials at the Nikolaev Institute of Inorganic Chemistry, Siberian Branch of the Russian Academy of Sciences (Novosibirsk).

His scientific interest includes chemical modification, structure and properties of fullerenes, carbon nanotubes, graphenes and other carbon materials. The methods of X-ray spectroscopy and quantum chemistry calculations are used in his work. He is a co-author of more than 300 papers.
